LOUNGE ROCKER

We took everything great about the Lounge Adirondack and amped up the relaxation. Now this chair rocks. When you sit down in the Lounge Rocker and indulge yourself in a few back-and-forths, you'll feel great. Made using 25% post-consumer recycled materials, it's durable, colorfast, UV-protected, and secured with hidden stainless steel fasteners. All that means your new favorite chair is going to last a long time.

LOUNGE ADIRONDACK

Welcome to the most comfortable chair in your outdoor space — now and for years to come. The Lounge Adirondack is an update on the classic design. It's relaxing without being nap — inducing and easy to get in and out of. Color, texture, and design work in almost any setting. Manufactured by TimberTech and our skilled craftsmen using 25% — and growing — post-consumer recycled plastics, the chair is a product of our collaboration with Loll Designs. Durability is built in, with colorfast, UV-protected components, stainless steel fasteners, and parts carved from a solid block of heavyweight material.

CONVERSATION TABLE

It's called the Conversation Table, but much more happens around it. Snacks, charcuterie boards, board games, candles, flowers, and a party's worth of glasses — all are handled by your favorite outdoor occasional table. Built to be strong and durable, it will serve you and your guests for season after season. And you can feel good about its 25% — and growing — post-consumer recycled content.

ASIDE TABLE

The tapers and curves of the Aside Table's legs suggest design cues of the classic Adirondack chair but with a distinctive contemporary vibe. More than just beautiful today, it's designed to stay beautiful, no matter what the weather (or you) throw at it. It welcomes whatever you're holding: glass, plate, magazine, phone, or keys. It's the often-overlooked accessory that makes your outdoor space much more comfortable in so many little ways.

MINGLE BENCH

Welcome to your favorite seat for two for this season and many seasons to come. The Mingle Bench takes design elements from our reimagined Lounge Adirondack and adds more coziness, comfort, and versatility to your outdoor space. Manufactured with equal parts human craftsmanship and high-tech machinery, using our proven recycled polymers, with materials like milk jugs.
