

Healthy Kids, Happy Summer

Summer has arrived! As your family enjoys sunny days, vacations, and outdoor fun, we're here to help keep your children healthy and safe all season long.

Summer Safety Tip: For infants 6 months and older, choose a broad spectrum, water resistant sunscreen with SPF 30 to 50. Apply before outdoor play and reapply every two hours, or sooner after swimming, sweating, or towel drying. For babies under 6 months, shade, hats, and lightweight protective clothing are best.

PAMPA Pediatrics is proud to recognize our Spring 2026 graduates! We celebrate their dedication, achievements, and bright futures ahead.

Measles

At PAMPA Pediatrics, we are prepared to help guide and support our families in the event of any measles outbreak in our community. Measles is highly contagious, but it is vaccine preventable, and staying informed is one of the best ways to protect your child and others. For more information about measles symptoms, exposure guidance, vaccination, and prevention, please the link below.
