It is Getting Hot Outside! Make sure you are Protected!

Ensure you are applying broad spectrum sunscreen to protect yourself and family against harmful UVA and UVB rays. Avoid sunscreen for infants under 6 months of age and keep them out of direct sunlight. Wear light comfortable clothing and hats when necessary. Sunscreen should go on 15-20 minutes prior to outdoor activities. Relieve sunburns with cool water, and apply any medicated ointments provided by your physician. Stay hydrated!
