SENIOR LIVING of VERO BEACH

MESSAGE FROM YOUR EXECUTIVE DIRECTOR: JANUARY 2026

There's a certain feeling that comes over you in a great old cathedral—something that hushes the world outside and draws you into a kind of quiet awe. Sunlight streams through stained glass, scattering blues and reds across smooth wood, intricate railings, and sometimes the gleaming pipes of an ancient organ, each sound echoing up into spaces shaped perfectly to carry music and prayer. It's hard to put into words, but you can almost feel the place hum inside your chest—a comfort, a stillness, a mysterious sense that something inside you is being soothed.

For centuries, we've chalked up the beauty of these buildings to faith and artistry. Yet, as science has peeled back more of the mystery, another truth emerges: their creators may have been working with a level of knowledge that still astounds us today. Many cathedrals were built to magnify certain sounds—low chanting, the deep swell of an organ, even a single clear bell—so that their vibrations linger long after the last note fades. Researchers are now finding that some of these sonic frequencies, by pure design or ancient intention, may even help calm our minds, steady our breath, and encourage a gentle kind of healing that everyone, regardless of background or belief, can sense.

It leaves me wondering—what else did those master builders understand about lifting spirits and fostering togetherness, knowledge that we're only now rediscovering? Perhaps it's not just the architecture or music, but the experience of being in a space built by many hands for the well-being of all. Maybe it's the simple fact that when people gather under a shared roof, supporting each other through silence or song, something in us finds a sense of belonging and peace.

We don't need stained glass or soaring arches to benefit from this ancient wisdom. Every day, in our own spaces—dining halls filled with laughter, patios humming with quiet conversations, even hallways lit by a friendly greeting—we create our own kind of resonance. The kindness, patience, and encouragement we offer ripple out, reaching further than we imagine and carrying a subtle, lasting comfort.

As we step into a new year, let's remember that we're all builders in our way—shaping environments with our choices and the warmth we share. May our community continue to be a place where hearts are lifted, spirits are steadied, and the gentle music of acceptance and care never fades.

Wishing you a harmonious and hopeful year ahead,

Peter S. Rost

Grit, Grace, & Family:
Celebrating Elizabeth "Liz" Arnold

Born in a tiny Alabama town called Children's Home, Elizabeth "Liz" Arnold grew up in Lakewood, Florida, as the spirited middle child in a family of seven. Life wasn't easy in those days. She and her siblings often picked cotton before school to help the family make ends meet. Hard work bonded them tightly, forming a loving, close-knit group whose shared memories still make Liz smile.

Fate stepped in the day Roy, a young airman stationed at Eglin Air Force Base, spotted her in town. Captivated, he wasted no time sweeping Liz off her feet. At just 16, she married Roy—22 at the time—and moved to Vero Beach to live with his family while he finished his service. It was there that Liz and Roy's sister, Betty, became instant friends. Betty taught her how to drive a car... and how to smoke cigarettes—skills Liz still laughs about today.

After Roy returned home, the couple built a small house and began raising their four children. Liz stayed home in those early years by taking in laundry and ironing, then later joined Vero's thriving citrus industry, working long days in the packing houses. She spent time at a local plant nursery as well, where she discovered a lifelong love for gardening.

Eventually, Liz found her career home at Piper Aircraft, where she proudly worked for 35 years before retiring. Retirement opened the door to the adventures she and Roy cherished most. Together they traveled in their RV camper with the Piper group, exploring campgrounds across Florida, Georgia, and Alabama. They loved vacationing in the mountain ranges of North Carolina and Tennessee, joining a bowling travel league with Roy's cousin, Ira Jack, and his wife, Judy, and—whenever the "specks" (speckled perch) were biting—heading to the water to fish.

And when there was fish, there were cookouts. Liz was famous for her cooking, and anyone who knew her will tell you: Aunt Liz made the best meals around.

Liz and Roy shared 64 years of marriage until his passing in 2018. Today, she continues to cherish time with the people who matter most. Visits from family and friends brighten her days, but nothing brings her more joy than time spent with her six grandchildren and twelve great-grandchildren, who adore her deeply.

A life of grit, love, laughter, and family—Liz's story is a beautiful reminder of what truly endures.

SHINE A LIGHT ON GREATNESS!

Nominate Someone Who's Going the Extra Mile!

At Renaissance, we believe exceptional care deserves recognition. Our Going the Extra Mile Award celebrates team members who make a difference with kindness, compassion, and dedication every day.

We invite families, visitors, and community members to nominate staff who go above and beyond for our residents. If you've seen a moment that warmed your heart, made you smile, or showed extraordinary care, we'd love to hear about it!

Thank you for helping us celebrate the heart and spirit of our community!

A little boy came downstairs crying late one night.

"What's wrong?" asked his mother.

"Do people really come from dust, like they said in church?" he sobbed.

"In a way they do," said his mother.

"And when they die do they turn back to dust?"

"Yes, they do."

The little boy began to cry again. "Well, under my bed there's someone either coming or going!"
