## Typical Properties

Please contact any member of our experienced sales team as a typical properties will vary based on the customized blend tailored to your specific application needs.

*Additional specifications available upon request.*

*We typically blend a small percentage of Anti-stat into each batch of material unless requested not to do so by our customers. Other additives such as Ultra Violet Inhibitors (UVI) are available upon request.*

*Our polypropylene meets the conditions of section 21 CFR, Section 177.1520 of the USA Food and Drug Administration's (FDA) Code of Federal Regulations. The resin may be safely used to produce packaging material, containers, and equipment intended for use in producing, manufacturing, packing, processing, preparing, treating, packaging, transporting, or holding food.*

*These data are presented only as typical properties of the base resins which, to the best of our knowledge, are true and accurate. However, since Conditions of use are beyond our control, all recommendations or suggestions are presented without guaranty or responsibility on our part. We disclaim all liability in connection with the use of information contained herein or otherwise. All risks of such use are assumed by the user. Furthermore, nothing contained herein shall be construed as an inducement or recommendation to use any process or to manufacture or use any product in conflict with existing or future patents.*
