What is Natural Organic Reduction?

Natural Organic Reduction aka “Terramation” utilizes the body’s own naturally occurring microbes to gently transform remains into nutrient rich soil. The process is done in individual vessels and takes approximately 60-90 days to complete. On average the process produces approximately 1 cubic yard of soil.

Direct Terramation

\$6800.00

Includes initial transfer of remains into our care, basic services of a Funeral Director and staff to include coordination with Natural Organic Reduction facility, Preparation (bathing and sanitary care), Refrigeration, Airtray for flight to Washington state, Transit Permit, Ice packs, Natural Organic Reduction fee. Also includes option of packaging and pickup of soil from Auburn Washington facility, Shipping of a small bag of remains to any US address, or delivery of remains to the Return Home Woodland preserve.

Laying in Ceremony

\$1000.00

A Laying in ceremony offers families a full service experience centered around witnessing and honoring their loved one at the Return Home facility in Auburn, Washington. The 2 hour service includes an additional 30 minutes Pre/Post ceremony for optional set up and breakdown of video/livestreaming equipment. Families may gather around their loved one in their designated vessel in a bed of straw and alfalfa in a calm, personal and meaningful environment. Includes optional organics and vessel placement participation.

*** Local officiant services are available at an additional cost.

*** Overtime charges: Saturday/Sunday \$1000. Holiday \$1500. Additional hours outside M-F, 9AM-5PM, or over 2 hours \$500 per hour.
