

Brazadas Membership – How It Works

Brazadas uses a two-part structure:

1. Membership - gives swimmers access to the team, limited coached practices, meet eligibility, free intrasquad meets, program discounts, and lap swim options.
2. Division Add-Ons - optional training plans that increase the number of coached practices each week and free home meets.

All swimmers first enroll in a Membership, then may add a division add-on if they want more practices.

Real Life Examples

Example 1: Judy (Individual Competitive Swimmer)

Judy joins Brazadas for the first time. She pays the \$150 one-time join fee and receives the full welcome package: 1 team suit, 2 team caps, 2 team t-shirts, 1 team sweatshirt, a stainless-steel water bottle, a private training session, and 3 guest passes.

She enrolls in the \$65/month Individual Membership. A coach assigns her to Navy Division.

With membership only, Judy may attend up to 2 coached practices per week and is eligible to participate in all meets. Intra-squad meets are free. Hosted and away meets require the flat meet fee.

Judy wants more training and adds the Navy Division add-on for \$80/month.

Monthly total: \$65 (membership) + \$80 (Navy add-on) = \$145 per month.

With the Navy add-on, Judy may attend a minimum of 5 practices per week (sometimes 6). She also receives 2 additional team t-shirts, a different team suit, and hosted home meets are included (excluding championship meets).

Example 2: Judy and Freddy (Family Membership)

Freddy decides to join Brazadas. He pays his own \$150 one-time join fee and receives the same welcome package.

The account moves to the \$115/month Family Membership. A coach assigns Freddy to White Division.

Judy keeps her Navy add-on (\$80). Freddy does not add the White Division training plan yet.

Monthly total: \$115 (family membership) + \$80 (Judy's Navy add-on) = \$195 per month.

If Freddy later adds the White Division add-on (\$30), the new monthly total becomes: \$115 + \$80 + \$30 = \$225 per month.

Example 3: Community Adult (Lap Swim Focus)

An adult in the community joins Brazadas primarily for lap swim. They pay the \$150 one-time join fee and receive the full welcome package.

They enroll in the \$65/month Individual Membership and are assigned to the Masters Division.

With membership, they may swim lap swim anytime it is offered and may attend up to 2 Masters coached workouts per week.

If they want more coached workouts, they may add the Masters Division add-on for \$15/month.

Monthly total with Masters add-on: $\$65 + \$15 = \$80$ per month.

Example 4: Parent Joins Judy and Freddy (Lap Swim Focus)

Judy and Freddy's parent decides to join primarily for lap swim. The parent pays the \$150 one-time join fee and receives the full welcome package.

The account remains on the \$115/month Family Membership. The parent is assigned to the Masters Division.

With membership, the parent may swim lap swim anytime it is offered and may attend up to 2 Masters coached workouts per week.

If Judy has the Navy add-on (\$80) and Freddy does not yet have the White add-on, the monthly total remains: $\$115$ (family membership) + $\$80$ (Judy's Navy add-on) = $\$195$ per month.

If the parent later adds the Masters add-on (\$15), the new monthly total becomes: $\$115 + \$80 + \$15 = \210 per month.

If Freddy later adds the White add-on (\$30), the monthly total becomes: $\$115 + \$80 + \$15 + \$30 = \$240$ per month.

Example 5: Community Adult Focused on Masters Training

An adult joins Brazadas specifically to participate in Masters coached workouts.

They pay the \$150 one-time join fee and receive the full welcome package.

They enroll in the \$65/month Individual Membership and add the Masters Division add-on (\$15).

Monthly total: $\$65 + \$15 = \$80$ per month.

With the Masters add-on, they may attend up to 5 coached Masters workouts per week and also have access to lap swim anytime it is available.

Example 6: Competitive Swimmer with Membership Only

A swimmer joins Brazadas and plans to compete but does not plan to add a division training plan yet.

They pay the \$150 one-time join fee and receive the full welcome package: 1 team suit, 2 team caps, 2 team t-shirts, 1 team sweatshirt, a stainless-steel water bottle, a private training session, and 3 guest passes.

They enroll in the \$65/month Individual Membership. A coach assigns them to White Division, Navy Division, or B-Team based on their age and ability.

With membership only, they may attend up to 2 coached practices per week and are eligible to participate in all meets. Intra-squad meets are free. Hosted and away meets require the flat meet fee.

They do not add the division training plan, so they are not scheduled for the full division practice schedule.

Monthly total: \$65 per month.

If they later want the full division training schedule, they may add the appropriate White, Navy, or B-Team add-on.
