

‘LEGENDARY LEGENDS: Our Story

Building a Permanent LEGENDARY LEGENDS Digital Archive

This project initiative will launch the creation of a **permanent LEGENDARY LEGENDS Digital Scrapbook and Legacy Archive**—a web-based collection designed to preserve the stories, accomplishments, experiences, resources, and ongoing work of LEGENDS and the broader community.

The **FINALE** will establish a lasting digital resource for LEGENDS, partners, supporters, researchers, and community stakeholders, including:

- **Biographies and Legacy Stories** featuring the journeys, accomplishments, and lived experiences of LEGENDS.
- **Video Stories and Testimonials** that preserve personal voices, experiences, and messages for future generations.
- **Partner and Legacy Network Links** connecting participants with community organizations, professional networks, patient-education organizations, and other aligned groups.
- **Archived Event Materials**, including photographs, videos, presentations, educational resources, and other materials from the FINALE and related initiatives.
- **Disease-Specific Resources** providing accessible educational information and connections to trusted community and professional resources.
- **Clinical Research and Clinical Trial Connections**, including opportunities to learn about and participate in appropriate ongoing research.
- **LEGENDARY LEGENDS Cancer Research Network**, highlighting collaborations with cancer researchers, community researchers, professional partners, and associate partners.

- **Community Research and Collaboration**, creating opportunities for communities to share research, experiences, successful approaches, and methodologies that may benefit others.
- **Virtual Partnerships and Events**, enabling LEGENDS and partner organizations to collaborate beyond geographic boundaries.
- **Stakeholder Networking**, creating connections among patients, families, advocates, researchers, healthcare professionals, community organizations, and other stakeholders.
- **Patient Education and Resource-Sharing**, supporting the exchange of ideas, tools, information, and proven methodologies that can strengthen education, advocacy, research participation, and community engagement.

Ultimately, the LEGENDARY LEGENDS Digital Scrapbook will become more than an archive—it will serve as a **living, evolving legacy and networking resource**. It will preserve the history of the LEGENDS while creating pathways for continued research, education, collaboration, clinical-trial awareness, community engagement, and partnerships long after the FINALE concludes.

From Ed and Pat Sanders, Founders

To our faithful LEGENDS, audiences, supporters, partners, volunteers, and community leaders throughout the years: We say: thank you for your thoughtful consideration, enduring commitment, and shared dedication to advancing health equity in underserved patient communities
