“African Americans In Clinical Trials” (AACT) I, II

The NEW COMMUNITY ADVOCACY:
Recruiting African Americans: SOLUTIONS THAT STICK!

Ed and Pat Sanders set their own stage for virtual workshops in June with the introduction of “Navigating the CORONA Zone.” AUGUST BEGAN THE FIRST OF A TWO-PARTS with a 2-ACT SERIES, “African “Americans in Clinical Trials.” with a discussion of cancer and introduction of related clinical trials. These trials could have life-saving effects on African Americans— from Adhering to safety precautions related to COVID-19 TO MATCHMAKING AND connections made, and recently with direct contact let’s see what happens in a few short weeks. SEPTEMBER BRINGS the second part in two-Acts as “African Americans In Clinical trials” present

“Recruiting African Americans: Solutions that STICK!,” and features leading stakeholders, universities, medical hospitals and mega church leaders talking about ways they are training their communities with disease and clinical trials information. From Medical Doctors and Academia to Patient Advocate to Major Stakeholders, these National Stakeholders are at the top of their game in patient and clinical outreach.

Thanks to our technicians for your assistance with this Workshop:

**MCCAW WORKSHOP FACILITATOR**

Dr. Doris Browne, President Browne and Associates

Dr. Browne is past President of the National Medical Association (NMA) and President/CEO of Browne and Associates, LLC (BAI), a health consultancy company that provides comprehensive wellness programs to its clientele. Among her specialties is sickle cell, HIV/AIDS, women’s health issues. Featured in many news articles including Ebony, Washington Post, and PBS News Hour; her education and training includes Tougaloo College (BS), University of California at Los Angeles (MPH), Georgetown University (M.D.); Walter Reed Army Medical Center in Hematology-Oncology. Dr. Browne retired as a Colonel from the U.S. Army Medical Corps and the National Institute of Health. She is a member of Alpha Kappa Alpha Sorority, and a recipient of the 2018 Top Blacks in Healthcare.

**INVOCATION: Pastor dr. Jacqueline Thompson, Senior Pastor, Allen Temple**

**THURSDAY, SEPTEMBER 24TH @12:30 PM (CT)**

The Reverend Dr. Jacqueline A. Thompson, Senior Pastor, Allen Temple Baptist Church graduated with a B.A. Degree from the University of California, Berkeley, majoring in Political Economy of Industrial Societies, earned her Master of Divinity from Howard University; and her Doctorate of Ministry in African Church Leadership from Fuller Theological Seminary, Pasadena. She was the first woman installed as Assistant Pastor of Allen Temple Baptist Church in 2010 and subsequently the first woman senior pastor of the historic church on April 7, 2019. Her excellence in academic scholarship, preaching and ministry has earned her numerous honors and awards, including “Who’s Who Among Students in American Colleges and Universities”.

**FRIDAY, SEPTEMBER 25TH @12:30 PM (CT)**

Dr. Larry B. West, one of the emerging voices in ministry in the Washington, D.C. area, has served as pastor of Mount Airy Baptist Church since 2002 where he challenges his congregation to “do greater and more wonderful works”. Dr. West holds a Bachelors’ degree in Management from the University of Georgia, a Master’s degree in Theology from United Baptist College and Seminary, and a Doctorate in Religions Studies from Trinity Theological Seminary in Newburgh, Indiana. Immediate Former Chairman of the Board of Directors for the National Baptist Convention USA; his memberships include Missionary Baptist Minister’s Conference, Leadership Council for Healthy Communities, Kappa Alpha Psi Fraternity, and a life member of the NAACP.
Dr. Kevin Sneed Senior Associate Vice President, Dean College of Pharmacy, He is also a Principle/Founder of he WE-CARE program, a University of South Florida Health cross collaboration of multiple stakeholders (national) who serve as a MODEL Workgroup Enhancing Community Advocacy and Research Engagement in Minority Populations. Dr. Sneed is a tenured Professor and founding Dean of the USF College of Pharmacy. He also serves as a Senior Associate Vice-President for USF Health.

Ms. Cassandra Harris: A veteran national stakeholder and master networker. Ms. Harris was well placed in key positions with the National Black Leadership Initiative On Cancer (NBLIC), a prominent national African American patient outreach organization, where she held many offices and worked to develop content for many events. Ms. Harris has continued her national networking, and it’s an honor to have Ms. Harris as part of the 50 Hoops’ family for over a decade. Her strategic outlook at African Americans participating in Clinical Trials and her wide reach to advocacies, churches, and key stakeholders allow her wide exposure to both the problems and solutions of recruiting African Americans into clinical trials. NOTE: Ms. Harris was recently administratively involved with the MD Anderson Cancer Center Vaccine. As part of the agreement, 50 Hoops and all our networks will be a part of this information outreach. Ms. Harris will speak briefly on its impact of her work on increasing participation in clinical trials.

They have all worked within their networks (academia, medical centers, health ministries, physician networks, student groups, patient advocates and community stakeholders) to educate and create a positive atmosphere for African Americans and other minorities to learn about and join clinical trials.

Dr. Thomas Britt, both MD and PhD, Dr. Britt is the Chair of the Chicago Coalition of National Black Leadership on Cancer. Has developed a Medical Student and Community Stakeholder Model for teaching the importance of African Americans in Clinical Trials to health-related majors and those in internships. Author of articles on reaching African American men in clinical trials. Dr. Britt plays a significant role in Chicago and as part a key stakeholder in both the NBLIC and 50 Hoops’ families. His work with students, exemplifies his commitment to educating the NEXT GENERATION of medical professionals about importance of Clinical Trials within our communities. Nationally renowned lecturer, his writing on the impact on exercise and nutrition on cancer is far-reaching within and outside of his student network.
Ms. Danita Brown: Health Ministry Director of the Brown Missionary Baptist Megachurch conducts both live and online health events. Thousands are invited and hundreds attend their cancer events. Ms. Brown steers a strong patient-centered group of volunteers and church workers who have their fingers on the pulse of the Southaven Mississippi and Memphis, TN communities bi-state African American communities with ALL forms of cancer patients.

Maisha N. Standifer, Phd, Mph Dr. Standifer: Recently transported to Atlanta to work in the David Thatcher Institute at Morehouse University. She worked previously with the We Care initiative at USF and was actively involved in grant-writing and with the patient and medical education activities. Her visionary 20th Century look at the “future of African Americans In Clinical Trials,” is both unsettling yet reassuring. Dr. Standifer was with the “P20” grant a few years ago, which was the seed concept and premise upon which We Care was built by Dr. Kevin Sneed.

Dr. Robin Skrine MD, Private Practice
Dr. Skrine was the medical director of The Breast Center at Hillcrest Baptist Medical Center in Waco before starting her own practice in 2008. Dr. Skrine is a member of the American Cancer Society, American College of Surgeons, American Society of Breast Surgeons and Association of Women Surgeons. Dr. Skrine is a board-certified surgeon specializing in breast care and surgery. After receiving her Doctor of Medicine, Dr. Skrine completed an internship in general surgery at Thomas Jefferson University Hospital.

Dr. Irene Ghourial, Lead Investigator, The Promise Study
Dr. Ghourial is the principal investigator for the Multiple Myeloma breakthrough, The Promise Study. She received her MD in 1995 from Cairo University School of Medicine, Egypt. She completed her Internal Medicine training at Wayne State University, Mich., and her Hematology/Oncology subspecialty training at Mayo Clinic College of Medicine, Minn. She joined Dana-Farber in the field of Waldenstrom's macroglobulinemia and multiple myeloma in 2005. She is conducting research in the area of homing and migration of B cells and novel therapeutic agents in Waldenstrom's macroglobulinemia and multiple myeloma.
Dr. Jeffrey Gahan, UT Southwestern Medical Center

PROSTATE CANCER

Combat Prostate Cancer Racial Disparity with a Novel Biomarker Signature

Dr. Jeffrey Gahan is an assistant professor in urology at UT Southwestern Medical Center and is the chief of robotic surgery at the North Texas VA. He attended Baylor College of Medicine for medical school and completed his residency at the University of Miami. He completed a robotics and minimally invasive fellowship at UT Southwestern. He specializes in the treatment of kidney cancer, prostate cancer and benign diseases of the ureter and kidney. He has clinical research interests in clinical outcomes of prostate cancer treatment in high-risk African-American men.

Dr. Harlan Pinto, Stanford University

LUNG CANCER

Dr. Harlan Pinto, MD is an Associate Professor of Medicine at Stanford University. He's a Medical Oncologist with over 37 years of experience in the medical field, working with the VA Medical Center in Palo Alto, CA. He graduated from Yale University School of Medicine medical school in 1983. His practice areas include Esophageal Cancer, Cervical Esophageal Cancer and Para-nasal Sinus and Nasal Cavity Cancer. He was featured in Castle Connolly’s America’s Top Doctors for five years and is Board Certified in both Internal Medicine and Medical Oncology.

Dr. Ashish Kamat, MD Anderson Cancer Center

COVID-19

Dr. Kamat is Professor of Urologic Oncology and Cancer Research at MD Anderson Cancer Center; Associate Cancer Center Director, RFHNH in Mumbai, and President of International Bladder Cancer Group (IBCG). Dr. Kamat has over 275 publications, is listed in ‘Who's Who in Medicine' and ‘Best Doctors in America', and has won the ‘Compassionate Doctor Award’ from patient groups.

SPECIAL RECOGNITION

MCCAW WORKSHOP SENIOR TECHNOLOGY CONSULTANT

Dr. Robin Kelley is the Chair of the Health Education Ministry of the Mount Airy Baptist Church. In this capacity, she has received multi-year grants for community health and wellness activities. She has worked closely with both community and church ministries on youth and women’s issues, such as domestic assault and health and nutrition. She is employed full-time at a nonprofit health organization and has received a cooperative agreement from the Centers for Disease Control and Prevention Division. Robin received her BA from Vassar College, her MSSW from Columbia University and her PhD in Public and Community Health from University of Maryland, College Park.

MCCAW WORKSHOP CANCER MEDICAL ADVISOR

Dr. Jason Porter, The West Cancer Center, Memphis

Dr. Jason Porter is a native of Memphis, Tennessee and currently a Medical Hematologist and Oncologist at the West Cancer Center and Research Institute. He completed his undergraduate degree at Christian Brothers University and medical training at the University of Tennessee Health Science Center. His clinical and research interests include early detection and screening for all cancers, local and advanced lung cancers and benign hematology. He has published research on the hypertension, advanced lung cancer therapy and side effects as well as acute Leukemia. A dedicated advocate for cancer patients, he derives a great sense of fulfillment from helping patients and their families navigate the therapies and complications.
