PRODUCT DESCRIPTION

- Formulated from dried distillers' grains and syrups (DDG-S), cereal grains and starches.
- Designed to deliver lactating cows a quality source of protein, rumen-fermentable carbohydrates, trace minerals and vitamins.
- Pellet size is 5.0mm.
- Free of any genetically modified organisms.

PRODUCT FEATURES & UNIQUE BENEFITS

Extremely palatable to beef cattle containing:

- Monensin, an ionophore to improve feed efficiency.
- Acid Buf, to better neutralise rumen acid.
- Biotin, a water-soluble B-complex vitamin shown to improve hoof health and hoof hardness.
- Levucell SC, a selected natural live yeast (*Sac-charomyces cerebisiiae* CNCM I-1077) to help optimise general functions in the rumen.

FEEDING RECOMMENDATIONS

- Can be fed to cattle at a daily rate of 4kg-8kg each.
- Feed should be offered fresh daily in frequently cleaned troughs.
- Fresh, clean water must always be available.
- It is recommended that independent advice is considered when feeding supplements.

PROTEIN FIBRE & FAT FRACTIONS (DM)	
Protein	22%
RUP (%CP)	79%
Rum ME	12 MJ/kg
