# EV REPLACEMENT PARTS

## HYBRID Hybrid and Electric, NAPA® Echlin® and NAPA® Temp Have You Covered

HYBRID

2014 Toyota Highlander Hybrid

**Hybrid Coverage**  
**7,500+** Parts | **230+** Models

We have over 200 parts for the 2014 Toyota Highlander Hybrid

There are almost 10 million hybrid vehicles on the road, and many of them are more than ten years old. With two different systems powering the vehicle, hybrids have more components compared to gas and diesel vehicles. More hybrids, aging hybrids, and more parts mean that hybrid repair opportunities are growing. NAPA® Echlin® and NAPA® Temp already have the parts your customers will be looking for.

2019 Chevrolet Bolt EV

**Electric Coverage**  
**2,300+** Parts | **80+** Models

We have over 50 parts for the 2019 Chevrolet Bolt EV

Electric cars are still cars. They use the very same sensors, switches, and climate control systems as gas and diesel cars, but they also present new opportunities. Batteries need to be heated and cooled, wires carrying high voltage fail and battery contacts corrode. NAPA® Echlin® and NAPA® Temp are committed to introducing more electric cooling pumps and fan motors and has extensive experience in wire, cable and connectors.
