

A Retail Management Solution that simplifies the day-to-day for garden centres

Created to make running garden centres easy while maximising ROI.

For over 45 years Davidson Richards has been providing a retail management solution, OpSuite, to over 80 garden centres and nursery organisations across the UK and Ireland.

OpSuite enables garden centres to manage everything from a single cloud-based solution, encapsulating all the processes involved with running a popular garden centre and managing them in a central location.

It is packed with features that help deliver outstanding customer service, from full stock control with purchase ordering, customer

loyalty, apps, reporting and connected processes for the hospitality element of garden centres too, OpSuite provides a secure option that helps reduce costs, increase profits and ultimately makes running a garden centre easier.

Key benefits of OpSuite

- + **Secure** – OpSuite is cloud hosted at the UK's leading provider, ANS
- + **Affordable** – ownership cost is designed to flex with your business and seasonal demands
- + **Proven** – OpSuite POS has handled over £1bn of transactions to date

- + **Reliable** – deliver great customer service in-store with our POS tills
- + **Resilient** – get all the benefits of the cloud for retail management and trading in-store
- + **Accurate** – access real-time data, reports and alerts 24/7 from wherever you are
- + **Connected** – seamlessly integrate other applications inc. accounting, scales and ecommerce
- + **Scalable** – easily add points of sale, locations and enterprises as you grow
- + **Professional** – our team includes ex-garden centre retailers who understand your needs
