Coffin & Casket Collection

Many families find choosing a coffin one of the most difficult parts of arranging a funeral.

All of our coffins and caskets are handmade individually in the UK by dedicated craftsmen.

We feel that when choosing a coffin for a loved one, it should reflect their life to create a personal tribute.

All coffins and caskets include plastic handles, if your loved one is being buried and you wish to have brass handles, additional charges will apply.

Prices are applicable for standard sized coffins, bespoke sizes may incur an additional cost.

Please note, the prices in this brochure are correct at the time of printing but may differ throughout the year.
