Haiti - House #116 Marie Francois Jean

Marie Francois Jean is a fifty-four year old mother of three natural children and two that she has taken in to raise.   This strong and determined woman of faith does some farming, selling little portions of vegetables that she is able to grow. As one can see by the "before" picture, this patched together tin covered with a blue tarp that she and her children called home offered little protection from the powerful Caribbean sun and torrential rain. She sends her heartfelt and profound thanks to all who have helped to take her out of the situation in which she and her family found themselves and give them the blessing of this beautiful new home.
