

Haiti - House #205 The Ernso Antoine Family

Ernso Antoine is a hard worker who has been a part of the HMI construction team since the home building project began in 2010. He is in charge of the cement mixer which he cares for like a new born baby! In his spare time he serves as a motorcycle taxi driver. Rose Darlene Alexis, his wife, does a little business selling vegetables, cookies and candies in Jeremie and on the roadside to help take care of their only child, eight year old Bethsaida. Ernso was born on Christmas day (December 25, 1989), so Christmas 2020 will be very special as he finally gets to move from the tarp covered cement façade to a new home as the ones he has built for ten years! God bless all who have helped this young family have not only a great Christmas but hope for a great life!
