

Haiti - House #208 Ketia Noel and Reginald Francois

Ketia Noel and Reginald Francois are two hard working parents living in the remote village of "NAN REPO" where they struggle to take care of the four children that God has given them.. Reginald is a cement mason helper and farmer and Ketia helps with the farming, selling whatever products from their garden that she can. Ketia regularly walks more than one hour to church every Sunday for Mass. Members of the November 2020 mission team were so moved by this miserable situation that they happily offered to help this beautiful family make the transition to a more decent place, fit for humans to live. Reginald and Ketia send their heartfelt and prayerful thanksgiving to God and the wonderful people who made this happen.
