

Haiti - House #213 The Balthazar Family

Felix Balthazar (seen in the “before” picture) is in his 80s. He and his wife, Amelia Dume, had five children. They are Catholics, but can no longer walk to church (although for years they walked the long, difficult distance to worship their God and pray for His blessing.). Felix, along with Amelia have farmed the little piece of ground they call home all of their lives. They reside with a son, his wife and four grandchildren . One of the children is mute. There rapidly deteriorating property is in Nan Repo (a community near Debarasse) which has been embraced by the HMI construction team as Bec's s/d #2. Mr. Felix, Mrs. Amelia and the entire family are continuously rejoicing that God has blessed them with such a miraculous gift!! They send their prayers and grateful appreciation to all.
