

Haiti - House #225 Jean Laurent

Jean Ronald Laurent & his wife, Angelie Leonard, have 2 children. Ronald is a cement mason and painter who works for HMI. Angelie has a little roadside stand where she sells items to help take care of the family. She also has been going back to school to complete her high school level hoping for a better future for her and her family. She regularly attends Mass with her children, always pleading with Almighty God to one day bless her family with a decent home. For many years this was her prayer but they never were able to acquire a piece of property on which to build a place. By the grace of God, they were finally able to find a piece of property that they could claim as their own and as of June 2021, the prayer of this persistent mother has been heard. She and her family send their heartfelt thanks to all that helped make this incredible dream become a reality.
