

## **Haiti - House #226 Jean Ronel Pierre**

**Junia Poto and Jean Ronel Pierre have 3 children whom they raise in the Catholic faith. Junia has a little roadside stand where she sells items to help her husband taking care of the household. Jean Ronel is a painter who works on the HMI houses. The June HMI team was there when the new home for the Pierre family was being built. There was so much excitement and joy, no one remembered to take a picture of the pitiful place where they were living before it got torn down. The “before” picture is of the Pierre family and the June 2021 team, standing on the location where the new home was to be built. HMI is so happy to intervene in this miserable situation in order to bring them hope and change the course of their life. The Pierres send their prayerful thanksgiving to all who helped to make this miracle happen in their lives.**
