

Haiti House # 237 - Michel Family

Williamson Michel and Lourdes Dorismond are engaged to be married soon. Williamson was orphaned at an early age. He survives that life in Haiti and now works as a cement mason for HMI. He lives with his siblings in this dwelling that you see in the before picture which is basically like an old stable. His fiancée, Lourdes, lives with her mother in Nan Sannite at Mercedes s/d. They are all Catholics and attend regularly, not only Sunday mass, but almost all the services or functions in the parish. They are two very kind people and committed to their church and community. Because of the difficulties that they have lived through HMI decided to build them a new home to start off their new married life together. They are so excited and so thankful they send their prayerful appreciation to all who helped bring this about in their lives.
