

Haiti House # 238 - Esperance Family

Claudia Esperance and her husband, Adonis Lusse i've been living in this old town Shaddy and struggling to raise their three children. Adonis is one of HMI's team working as a mason. His wife has a little roadside stand where she would sell some little items to help take care of the household. They are very kind with smiling faces despite their difficult condition of life. Claudia is very regularly at church with her children. She is also a member of St Brigitte's parents committee. They have been hoping for this house for years. After faithfully building houses for so many other families for all these years, Adonis and his family will finally have their own house. They are so thankful and send a prayerful appreciation to all who helped bring this about in their lives.
