

## **Haiti - House #249 Christophe Family**

**John Peterson Christophe & his wife, Rosemitha Louis, have one child. “Peterson” as he is called, is one of our HMI construction team who does iron re-bar framework with the cement crew. He is a hard worker that has been living in the old, piecemeal-tin shanty you see in the “before” picture while building the beautiful HMI homes. Finally the prayers of this young family have been answered and this Christmas 2021 will be one they will never forget. They send their deep appreciation and assurance of their prayers to all who helped make this “impossible dream” possible.**
