

Haiti - House #253 Pierre family

Jean Michel Pierre, his wife Adiana Vendredi and their two children have been living somewhat as squatters in the piecemealed old scrap material shanty in the “before” picture located in the center of an abandoned soccer field in Numero Deux. Jean Michel and Adiana work at any odd jobs they can find, trying to survive in this very difficult situation. Through prayers and the help of family and friends, they were able to acquire a small piece of property that they could call their own in order that HMI could build them one of the lovely homes that have come to be cherished by the community members in and around Numero Deux. They send their deep appreciation and commitment to pray for those that helped make this possible in January 2022.
