

## **Haiti - House #257 Raynault**

**Joseph Pierre Raynault and his wife, Lise Rochebren, are a hard-working young couple with one child and one on the way. Joseph lays ceramic tile and Lise sells little items in the market in Jeremie in order to try to care for their growing family. They live in the little scrap-tin shanty in the community of Nan Sanite by the sugar cane mill. (Not far from Numero Deux). Joseph has been asking that they be considered for a home for several years. The couple's hard work ethics and miserable circumstances has not gone unnoticed. By the grace of God and the gift of the HMI donors, their situation has changed much for the better in February 2022. They send their prayerful thanksgiving to all who made this possible.**
