

Haiti - House #259 Fouyol

Chesly Fouyol is a catholic widow who is staying with her brother in the crumbling shanty you see in the “before” picture. Since she was basically homeless, she sent her two children to live in PAP. She has some challenges with her eyes. The occasional eye doctor that visits the area has not been able to help her condition although she remains hopeful.. She used to sell whatever she could find to survive and help her brother. She has been patient and prayerfully waiting and hoping for the day that she could possibly receive a beautiful HMI home and be reunited with her children. The miracle has finally happened, March 2022 she has been selected to be granted a new decent place to live. She sends her joyful thanksgiving to all who helped make this possible.
