

Haiti - House #262 Josette Noel

Josette Noel lives with her blind mother, her husband and 2 children in the shack you see in the “before” picture. Her husband, Arsen Alexandre, (not in the picture) is a taxi moto driver. She does family farming, sells candies and other little things to help make a living for the family. Though she lives at "Kavin" in the upper side of Bec s/d, for many years, she has been walking the several miles distance, coming regularly to Sunday Mass, praying and asking God to help her family. The HMI selection committee has been aware of the misery in which they have been living, especially taking care of her elderly, blind mother. The necessity and urgency to move them to a more decent living environment was very apparent. Thanks be to God, in April 2022, the families prayers were answered and the miracle happened. They send their heartfelt appreciation and prayerful thanksgiving to all who helped make this happen.
