

Haiti - House #263 Jacklin Despeines

Jacklin Despeines with his wife Cherlie Dorismond and their daughter are pictured in the “before” stacked logs and tarpaulin covered shanty in which they have been living. He does farming and a little commerce, selling small amounts of fuel and other items to try to support the family. Cherlie is a teacher. In spite of their industrious hard work, they have never been able to build a decent home for them and their 2 children. In April 2022, their prayers were answered. They send their assurance of prayers for the donors and their loved ones along with their thankful appreciation.
