

Haiti - House #266 Faveur Beauchamp Family

Faveur Beauchamp is a 67 year old widower, father of seven children but lives now with five of them in the pitiful looking shanty you see in the before picture. He does farming to continue taking care of his family. This shanty that you see in the picture was constructed after hurricane Matthew (October 2016) and he has been unable to rebuild since then. His physical health has deteriorated and he has been sick for quite a while. He is a faithful Catholic who attends regularly Sunday Mass though he lives at Cavin (upper Bec's s/d) which is a several mile walk one way to the church. He has been praying fervently asking God to help somehow get him a new home but the condition of the road where he lives was so bad that HMI could not consider trying to do something for him. There has been a little improvement made recently in the road situation and we are now happy to move him into a secure and decent place especially during the rainy season. He sends his prayers and best wishes to everyone who helped make this possible.
