

## **Haiti - House #269 Acluche Family**

**Just when you think you've gotten rid of all of the really bad shacks and huts you find another one like this that's so pitiful it's hard to believe that anybody can be trying to live in there. Bergmann Acluche is a 66 year old widower whose health has been deteriorating as of late. He used to be a very good farmer but he can't do much anymore. The place in which he lives that you see in the “before” picture is contributing very much to his debilitating situation. (This is located in Tiga which is in Bec's s/d.) Also in this pitiful shanty lives three of his six children and one grandchild. We are so happy to help move him into a more decent and secure place to live that can hopefully improve his health. He sends his deepest appreciation and Thanksgiving and assurances of prayer to all who helped bring about this miracle in his life and that of his family.**
