

Haiti - House #271 Ernst Dominique

Ernst “Pouchon” Dominique is pictured with his wife Clervecia and their son in front of the shack they’ve been living in that you see in the “before” picture. Ernst is Chimene's brother (see Chimene’s story #270). He and his wife work for HMI. Clervecia cooks mostly for the school children. They work very hard, walking the considerable distance back and forth to Numéro Deux to do their jobs except Sundays when Clervecia walks the distance to come to church with their son. Since there is an accessible road now connecting Numero Deux to Paroty (their locality), HMI is delighted to partner with our donors and build the Dominique family a new and decent place to live. They send their prayerful appreciation to all who helped bring about this miracle in their lives.
