

## **Haiti - House #273 Victor Family**

**Astride Victor is a widowed mother of two. Suddenly last year she lost her husband who was the backbone of the family. Her already fragile living condition that you see in the “before” picture has worsened. Nevertheless, she still continues to offer her big smile whenever she is seen after Sunday mass. (She lives at Tiga in Upper Bec's s/d). We know that by God's grace and because of the generosity of the HMI's benefactors, Astrid and her family will certainly begin and enjoy a total new life now that they have a safe and secure home. They send their assurance of prayers to all who have helped to make this dream a reality.**
