

## **Haiti House #283 - Robinson André Family**

**Robinson André and his wife, Olène Michel, live with their 2 children in Paroty. The piecemeal home you see in the photo represents all the scraps that they could pull together to cover themselves since Hurricane Matthew wiped out their home and village in October 2016! Robinson is a very hard working carpenter and farmer and Olène is a Pre-K teacher, however, since the hurricane there has not been a road that was passable for the trucks carrying construction materials until Ing Paul (may he rest in peace) solved that problem. They are forever grateful to God and to the donors of HMI who have made their dream of a new home possible.**
