

## **Haiti House #287-Marie Wyse**

**Marie Wyse and her husband, Selot Witny, and two children live in Paroty. Selot is an electrician and they work hard together to try to provide for their family. Like much of Paroty, their home was destroyed by Hurricane Matthew in October of 2016 and since then they have been trying to keep the rain out of the tiny tin structure you see in the “before” picture. The new Ing Paul Road has changed everything and they praise God and thank Haiti Mission for providing them with a new home where their family can finally thrive.**
