

Haiti House #293-Marie Féla Georges Family

Marie Féla is a Kindergarten teacher who lives up at the top of the mountain in Tiga with her two children, a grandchild and a nephew. Because she is a widow she has to work very hard to care for her family. She has known much misfortune in her life and has not been able to provide what she would like for them. You can understand her thanksgiving simply by looking at the structure that this family of five has had to call home. She looks forward to living in a decent home that will provide security and health for her family.
