

Haiti House #299 - Romario Augusta

Romario Augusma, and his wife, Baouchie Moïse, have one child together. Romario is one of the carpenters for the HMI construction team. He works very hard but is particularly known for his kindness and always makes himself available to help at church when asked. He is deeply grateful to have a profession for life thanks to HMI and now even more so that he has been selected to receive a new home.
