

Haiti House #302 - Jean Claude Lamy

Jean Claude Lamy and his wife, Élanise Félistaint, have 6 children and 9 grandchildren. All their lives they cared for their family through farming however, they both suffer from eye problems now and must be assisted by their children. They live with one of their two daughters and a granddaughter and try to help out to provide for the family as much as they are able. They praise God for sending someone to help them in their great need. They are very grateful for the HMI and the donors who have made their new home possible.
