

Haiti House #307 - Lexy Pierre

Lexy Pierre is a carpenter and his wife, Ivrose Maurose, does a little commerce. They have 2 children together and have been patiently praying and asking for a new house to live with their family for at least the past 2 years. It is now with great joy that God has answered their prayers through HMI and they can leave the pitiful shack that you see in the photo. They are deeply grateful to the donors responsible.
