

Haiti House #308 - Mesner Depeine

Mesner Depeine is a teacher who grew up in Numero Deux. His wife, Mislene Celestin, has studied cosmetology. They both farm to make it much easier to provide food for their family. They are expecting a baby soon and that brings their families great joy. They are happy that HMI has been blessed enough to help them. They thank God and the donors for the great blessing of being able to welcome their first child into a much more decent place to begin his/her life in this world.
