

Haiti House #313 - Onette Cajoux

Onette Cajoux and her husband, Estra Antoine, have four children and live with their two kind and smart grand children who attend St Brigitte School. They live on the produce of their little garden as well as through the generosity of some friends and family members. Onette used to come to Sunday Mass before her eye problems rendered her almost completely blind. For many year they have been asking for a more secure and decent place to live with their family, but their property's title was the main handicap. However, through God's grace, much perseverance, and the generosity of the HMI donors their prayers have been answered.
