

Haiti House #316 - Germise Poteau

Germise Poteau, and her husband, Andris Dominique, have 9 children. HMI missionaries know Chimene and "Pouchon" are two of the nine. They live in Paroty and are farmers who make their living selling the produce from their garden at the market in Jeremie. They have been living in this pitiful structure since the hurricane in 2016 so they are thankful to Eng. Paul for repairing the road that made building in their area even possible. They praise God for this blessing and thank the donors who have made their new home a reality.
