

## **Haiti House #321 - Robenson Lestin**

**Robenson Lestin and his wife, Roberta Despeines, have one child and live in Numero Deux. Roberta has just graduated from nursing school ranked #3 in her class! She also takes care of her mother who is lame and in very poor health. Robenson works as a cabinet maker and the current situation in Haiti has made jobs very scarce for him. Though their shanty is neat, it is not a real, secure house and they had little hope that anything would change given their financial difficulties. They give praise to God and gratitude to the donors of HMI who have changed their lives by giving them a beautiful new home in which to live.**
