

Haiti House #325 Marie France Germain

Marie France Germain is a strong and courageous single mother who lives in Numero Deux with her son and daughter. Two years ago they suffered the trauma of being forced from their home in Port au Prince by gang members. They were able to come home to Numero Deux but with next to nothing. They have been praying for God's help and it was with great joy that they received the news that they were chosen to receive a new home. They thank both God and the donors for hearing their cries.
