

Haiti House #338 Charly Michel

Charly Michel is a pharmacy employee and his wife, Guerline Fanfan, works with computers when she can find work. They have two children and live in Numero Deux. Regardless of how hard they work, still you can see in the photo that it has not been enough to provide this young family with a decent place to live. They have prayed together for a very long time to be chosen to receive a new home. They send their praises to God and thanks to the donors of HMI who have made their impossible dream, possible.
