

Haiti House #352 Venette François

Venette François is a widow with nine children. One of her younger children has a mobility impairment as does Venette herself. She does have help from two of her older sons who drive taxis, but she still must fight every single day to try and care for her large family. With all this difficulty it is easy to understand Venette's joy at being chosen to receive a new home. She praises God and thanks the donors who made this change in her life possible.
