

## **Haiti House #354 Henry Gasner**

**Henry Gasner and his wife, Herlande Blanchard, are both school teachers. They have three children and used to live in a rental home in Jeremie. However, in August 2021, their home, like many others, was destroyed in the earthquake that struck the area that day. Since then, they have been living and making do in the tent you see in the photo. They are delighted to have been chosen to receive their beautiful new home and send their thanks to HMI and those who made it possible.**
