

## **Haiti House #362 Jean Dinal Jean Baptiste**

**Jean Dinal Jean Baptiste was a carpenter and a farmer before he became handicapped. His wife, Rosemita Valentin, as the head of the family now, does a little commerce at the public market in Jeremie. She has a huge job to try to provide for the five children and three grandchildren who are currently living with them in Paroty. You can see that their home was very inadequate and so they had been praying for the help of God and HMI. It is easy to understand their joy in receiving their new home!**
