

## **Haiti House #364 Jinette Civile**

**Jinette Civile and her husband, Jean Viliaume, live with their two children in Upper Bec's subdivision. Jinette farms and sells her produce to provide for the family while Jean is a mason when he can find work. As you can see their living situation was dire and they were in great need of a healthy, decent home. They are deeply grateful to God and to the donors of HMI for changing their situation so drastically!**
