

## **Haiti House #386 Mickson Luc**

**Mickson Luc lives in Numero Deux with his wife, Vesta Valerie, and their 4 year old daughter. As you can see from the before picture, their living situation was dire especially considering that they are expecting a second child very soon. It is easy to see why they have been asking for a new home. They are grateful to God and the donors of HMI for their wonderful new home and the safety and security that it will give to their growing family.**
