

## **Haiti House #415 James Woodly Joseph**

**James Woodly Joseph is a worker with HMI's construction team. He and his wife, Sophia Azor, live in Numero Deux. Sophia works as a nurse, and together, she and James are providing for two of James's brothers in addition to themselves. There was not enough left to provide them a decent home and so they were stuck in the terrible conditions you see in the before photo. They are extremely grateful to receive the gift of a new home and praise God for his generosity. They send their thanks to the donors who have made their home a reality.**
