

Haiti House #429 Garry Louis

Garry Louis is a mason and a carpenter and lives in Bec's Subdivision with his wife, Velanta Joseph. They have six children. Garry is known as a very kind man as well as a very hard worker. Recently he has been entrusted to apply the new coating to the roof of the church and to work on the retaining wall behind it. As you can see, their living conditions were awful. They are filled with joy and gratitude and thank all those who have made their beautiful new home possible.
